

Genitourinary (Gu) Cancers Symposium 2018

February 8-10, 2018
California, USA

The 2018 Genitourinary (GU) Cancers Symposium is a three-day scientific and educational meeting designed to meet the needs of physicians and other members of the cancer care and research community who diagnose, treat, and study GU malignancies. In educational sessions, expert faculty will discuss new research and its clinical application with an emphasis on multidisciplinary care across the spectrum of GU cancers. Oral abstract presentations and poster sessions will highlight the latest, cutting-edge science, and keynote lectures from internationally renowned speakers will address the most clinically relevant research in the field of GU oncology. The 2018 Symposium will feature interactive case-based discussions and debates, and ample time for networking with faculty members and fellow attendees.

Translating Evidence to Multidisciplinary Care

USANZ 2018

The Urological Society of Australia and New Zealand

24-27 February 2018
Melbourne Convention Centre, Australia

The Urological Society of Australia and New Zealand (USANZ) is the peak professional body for Urological surgeons in Australia and New Zealand.

The Society's vision is to continue to work for its community to ensure the best access to the quality urological care its members provide.

USANZ is committed to clinical excellence, education, the promotion of research and the dissemination of information on urological topics for the benefit of the community.

The Society administers the Surgical Education and Training (SET) Program in Urology through the Royal Australasian College of Surgeons. It also organises Continuing Professional Development (CPD) activities for members; and represents the views of urologists to governments, the health sector and medical industry.

UROFAIR 2018

**INTEGRATING SCIENTIFIC KNOWLEDGE,
TECHNOLOGY AND CLINICAL UROLOGY**

12-14 July 2018

The UROFAIR, a premier annual scientific urology conference for the Asia-Pacific region, will be held from the 12th to 14th, July 2018 in an exciting and refreshing conference venue at the Grand Hyatt Singapore, in the midst of the world famous shopping belt - the Orchard Road. You are invited to come and join a panel of renowned international and local experts to be enlightened and updated on some of the most challenging issues across all sub-specialties of Urology.

In line with the theme "Integrating Scientific Knowledge, Technology and Clinical Urology", the event will commence with a pre-congress live surgery forum featuring the latest technological advances in MIS and endo-urological tools, coupled with semi-live video sessions to be conducted by experts that will provide ample opportunity for interaction and discussion. The main congress will cover thoughtfully selected contemporary urological topics in oncology, endo-urology, BPH & LUTS, female & reconstructive urology, andrology and renal transplant. The plenary sessions will feature multi-disciplinary approach to provide the latest evidence-based solutions to an array of complex urological issues we face in our daily clinical practice.

Singapore Urology Association warmly invite and welcome you to the Urofair 2018 and look forward to learning and interacting with you in a relaxing ambient.

Northeastern Section of the American Urology Association

The Northeastern Section of the AUA will stand at the forefront of education and research promoting excellence in the specialty of urology serving both its members and the public. The Section will be driven by the different challenges and socioeconomic conditions between the United States and Canada fostered by our unique geographic boundaries.
